No. of Functional Features Included in the Solution

Date	29 September 2026
Team ID	SWTID-2026-6564
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Incident Creation	Employee raises an incident with a short description and details through the Service Portal.	Service Portal / Incident Form	Done	0.5
2	Keyword-Based Auto Classification	Flow reads the short description, matches keywords from the rules table and sets category and subcategory.	Flow Designer / Classification Rules table	Done	1.0
3	Manual Triage Fallback	Tickets with no keyword match are routed to a manual triage queue so none are lost.	Flow Designer	Done	0.5
4	Automatic Priority Setting	Priority is set from impact and urgency, and outage keywords raise it.	Flow Designer	Done	0.5
5	Auto Assignment to Group	Ticket is assigned to the correct assignment group based on its category.	Flow Designer / Group mapping	Done	0.75
6	Notifications	Caller and assignment group are emailed when the ticket is classified and assigned.	Notifications (Email)	Done	0.5
7	Classification Work Note	A work note on the ticket records how it was classified.	Incident record	Done	0.25
8	Reporting Dashboard	Dashboard of tickets by category and group, and auto versus manual classification.	Reports and Dashboards	Done	0.5
9	Role-Based Access Control	ACLs limit who can view tickets and edit the keyword rules and flow.	Platform security (Roles, ACLs)	Done	0.5

Feature Summary:

Metric	Count / Value
Total Features Planned	9
Total Features Implemented	9
Core / Must-Have Features	6 (Features 1 to 5 and 9)
Additional / Nice-to-Have Features	3 (Features 6, 7 and 8)
Features Tested & Verified	9 (tested with sample tickets)

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Incident Creation, Reporting Dashboard
2	Backend / Logic	4	Auto Classification, Manual Triage Fallback, Priority Setting, Auto Assignment
3	Database / Storage	1	Classification Work Note stored on the incident record
4	API / Integration	1	Email Notifications
5	Security / Authentication	1	Role-Based Access Control
